ABOUT US

IDEArc International and Consulting LLC. was founded in 2015, by a Civil and Geomatics Engineer specialized in Transportation Engineering.

The company's name IDEArc is derived from the acronym of "Infrastructure, Design, Engineering and Architecture", which also describes the company's operating structure. The firm collaborates with a wide range of partners with various specializations.

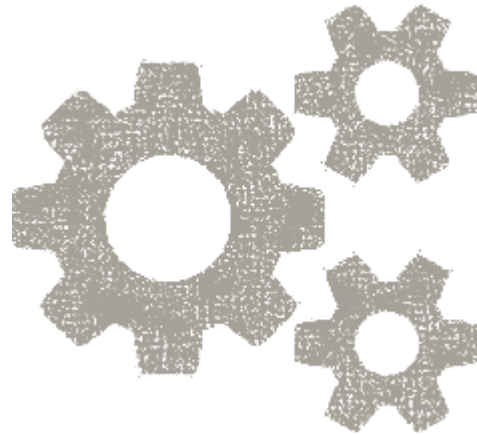

IDEArc's mission is to fill the gap in Urban, Architectural and Engineering Design by providing Transportation and Infrastructural Engineering services.

Specialized in:

- ▶ Land development
- ▶ Industrial zone master planning
- ▶ Earthwork design & Feasibility studies
- ▶ Performance analysis of bridges
- ▶ Road geometric design, circulation plans and carparks
- ▶ Highway, intersection and interchange design
- ▶ Construction consultancy
- ▶ BIM for infrastructure
- ▶ Software

We take part in highway, urban design, industrial zone, railway, port, housing, master planning, industrial facility, mixed-use, shopping mall and health facility design projects providing Transportation and Infrastructural Engineering services driven by up-to-date technology.

COMPANY STRUCTURE

*We are experts at Civil 3D, InRoads and BIM technologies.
For your large-scale projects we run the machines, not people.*
